

Parents and Carers Survey Results

2022-2023

Parent survey results – 2022-2023

Introduction

Each year we will seek the views of the parents and carers at Woodland Grange Primary School about various aspects of our work.

The outcomes below are the parents and carers perceptions of the different questions asked. This helps us to better understand the work of our school, what we do well and the areas we need to improve from the perspective of the parents.

We will ensure that the outcomes with required improvement are used to shape updates to the academy development plan so that we can do things better from the parents and carers perspective.

As always, we appreciate your views and welcome visits to the school at any time if you have a concern or worry that you wish to share.

Great school for education and personal development.

All three of my children go to this school. We would like to thank the school teachers and all the school staff for their interest.

It's a brilliant school, very supportive school team and achievements are high; children are motivated to do well.

As a parent, I would highly recommend Woodland Grange.
