

Woodland Grange Number Formation

Make a big loop, just like so. This is the way to make zero.

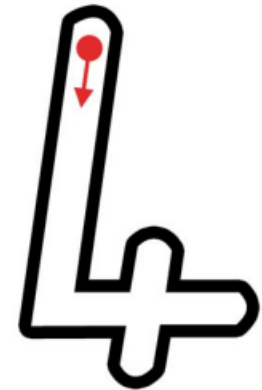

A straight line down is how it's done. Look at me I'm number one.

Around and back on the railway track make two, two.

Around the tree and around the tree. This is the way you make a three.

Down and across and down some more. This is the way you make a four.

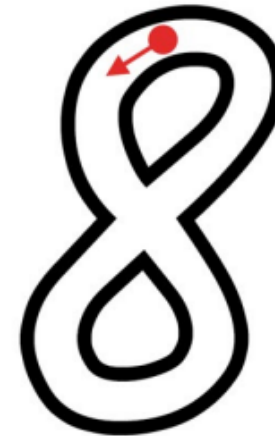

With a straight neck and a round tummy, put his hat on, five sure looks funny.

Down to a loop, the six rolls a hoop.

Across the sky and a slanted line, it makes a seven every time.

Make an s and do not wait, climb back up to make an eight.

A loop and a line makes nine.
